LOGIE DURNO FLOCK

At Logie Durno we are focused on breeding modern Suffolks to do what Suffolks do best, producing quick finishing, easy fleshing, profitable lambs.

The majority of our rams are sold from farm to repeat customers and we have had great feedback on their performance. As well as carcase traits we aim to excel in traits such as legs and locomotion, tight skins, clean tails and attractive silky heads for producing females.

We have a range of pedigree and commercial females available from farm.

BENTLEY SUFFOLKS

“Bentley Suffolk rams are all born early March and reared & recorded on a forage only system with no creep feed. No ewes or rams are foot trimmed & we cull hard for other functional traits such as dirty bums, bad mums, lambing difficulty & ability to hold condition. These rams are pictured in May just after shearing, straight from the field having had no hard feed.”
